CONTACT US FOR MORE INFORMATION!

We utilise modern technologies in the process of building our Konecta Homes, we guarantee that only the goods of perfect quality are brought out of the factory. Quality of a product is inspected in every phase of manufacturing such as:

- attention to detail and planning
- matching of fixings and components
- functioning of the windows doors
- quality of the building elements.

'THE KONECTA SYSTEM PANEL HOUSE' is available in 4 standard model designs, which have all the great features of a log cabin, such as high insulation value, strength, and of course the undeniable aesthetic beauty of natural wood. We have created a new way to build them with an insulated panel system, which cuts construction time by over 50%.

We believe that you should have the freedom to choose that is unique to you and not be forced to accept mass produced standard models. With this in mind, we offer a complete design service and remain flexible enough to co-design with our clients, so if you have a particular layout in mind, we can provide you with a floor plan, 3D visual and a personal quotation free of charge.

If you would like to discuss your requirements in more detail, why not give us a call for more information, after all, it costs nothing to talk.

New Forest Log Cabins Ltd
Wyevale Garden Centre,
229 Wimborne Road West
Wimborne, Dorset, BH21 2DN
