## Sussex (Konecta) Transportable Mobile Home

The Konecta House is half completed at the factory phase, the external timber colour which you choose, is ready painted for you using quality Remmers protector. We offer a choice of exterior timber profiles in round or square log finish and for interior finishes, you may go for the traditional all wood look, or perhaps you prefer plasterboard which you can paint in your choice of colour, alternatively you may choose a half wood, half plasterboard finish which is very eye catching.

All glass window units used in windows and doors are double-glazed, argon gas filled for complete warmth and quality. The Konecta House delivered to you flat packed, its construction is done in simple stages !

We offer a range of options for fitting the  
**Konecta House:**

1. Fully fitted out and delivered to site.
2. Full Turn Key Offering (Only available on sales of multiple units)
3. Full Erection Service.
4. Option of Mobile or Static Build.
5. Erected to weather-proofed stage, leaving the customer to finish internal stage.
6. Supply Only for Self Build.
